Based on a revised report of your income from the Internal Revenue Service for the Tax Year 2015, we are reducing the amount of self-employment income credited to your Social Security earnings record from \$23,138.00 to \$0.00.

We may show up to one dollar more self-employment income than you originally reported. This is to make sure you receive credit on your earnings record for the full amount of your income since the Internal Revenue Service drops the cents from self-employment income amounts they report to us.

If you have any questions about this adjustment, you should get in touch with the Internal Revenue Service. If you have questions about other Social Security matters, call us at 1-800-772-1213. If you prefer to visit one of our offices, please check the local telephone directory for the office nearest you, or call us and we can give you the office address.

Suspect Social Security Fraud?
